Technology Engineering & Design

World Language Classes at UPHS - are not available for 9th graders

Note: What is the difference between Honors vs. Standard level classes?
Honors courses are more rigorous offerings of content than a standard course. Emphasis will be placed on greater depth of the concepts in order to increase critical thinking skills. In addition, Honors will include more out of class reading, in-depth writing assignments, additional independent projects, and greater number of essay/short answer test questions. A minimum of 80% in a prerequisite course required.

Please return this form to your school counselor/teacher.
